

Index

A

abundance (estimating) 70, 89, 95, 96, 99, 113, 124, 135, 156, 158, 202, 268, 269, 308
 acoustic survey. *See* hydroacoustic
 anesthetic
 formalin 431
 MS-222 181, 187
 Arctic char *Salvelinus alpinus* 134, 385
 Atlantic salmon *Salmo Salar* 198, 200

B

brook trout *Salvelinus fontinalis* 104, 200, 422
 brown trout *Salmo trutta* 104, 200, 426
 bull trout *Salvelinus confluentus* 96, 104

C

capture efficiency 88, 91, 92, 101, 102, 105, 117, 121
 carcass 59, 435
 carcass count 59, 435, 439
 estimation for capture–recapture 60, 62, 68
 scale sampling 66
 cast net 87–94
 catch-per-unit-effort (CPUE) 88, 100, 104, 112
 community richness. *See* species richness
 coded-wire tag (CWT). *See* tags
 cutthroat trout *Oncorhynchus clarki* 104, 106, 153, 159

D

data management 69, 162, 225
 data elements 27, 32, 40
 metadata 31, 40, 55, 349, 439
 quality assurance 55, 27, 166, 184, 218, 349
 quality control 5, 27, 166, 184, 192, 393, 395
 data sharing 38
 diel sampling 159, 164, 167, 426
 DNA sampling 66–67, 270, 430
 Dolly Varden *Salvelinus malma malma* 446

E

egg-to-smolt survival 235
 escapement (estimating) 59, 62
 estuary (sampling in) 269, 272, 276, 280, 412

F

fin marking. *See* marking

fishway 173, 174, 187, 190
 fry 186, 222, 239, 243, 256

G

genetic sampling. *See* DNA sampling
 gillnet 135, 325
 gill cover. *See* marking operculum
 grilse 35

H

hydroacoustic surveying
 shore-based 133–147
 boat-based 138, 157

J

jack salmon. *See* grilse

K

kelt 187

L

lake (sampling in) 153, 425

M

mainstem (sampling in) 173
 marking (of salmonids) 68, 106, 110, 118
 fin clipping 109, 111
 operculum punches/notches 63, 68
 masu (cherry) salmon *Oncorhynchus masou* 88, 91
 measurements (of salmonids)
 fork length 59, 73, 109, 348, 353
 total length 109, 211
 mid-eye fork (MEF) 403
 mid-eye to posterior scale (MEPS) 75
 post-orbital to hypural length (POHL) 59
 mesh size 87, 267, 272, 277, 281, 308, 313, 341, 411, 425
 monitoring plan 11, 15, 21, 55, 200
 mortality (during survey methods) 122, 135, 177, 181, 341, 351

N

net. *See* cast net, seine net
 nocturnal (nighttime) sampling 274, 448

O

operculum. *See* marking

P

parr 96, 104, 186, 235, 243
 pelagic (sampling in) 159, 166, 276, 292, 305, 426
 pond (sampling in) 89, 93, 313
 pool (sampling in) 89, 109, 117, 173, 254, 272, 298, 313, 328, 332, 438

presence/absence sampling. *See* sampling design

Q

quality assurance. *See* data management

R

radio-telemetry 222
 rainbow trout *Oncorhynchus mykiss* 96, 104, 107, 112
 removal (depletion) technique
 one-pass 104
 multiple-pass 100
 riffle (sampling in) 254, 299, 327, 373, 438

S

sample size 20, 61, 97, 117, 260, 273, 329, 391, 414, 420
 sampling precision 61, 62, 96, 112
 sampling design
 master sample concept 20
 presence/absence 88, 91, 112, 155, 308, 325, 326
 rotating panel design 20, 197, 201, 206
 sampling error estimation 16–17
 simple random sampling (SRS) 16
 spatially-balanced sampling (generalized random-tesselation stratified design, GRTS) 14, 17, 20, 201, 204
 stratified random 16, 436
 systematic sampling 17, 365, 367, 370, 373–376
 SCUBA 203, 282, 312
 seine nets
 arc sets
 beach-lay elliptical arc set 300
 circle set 301
 double-seine simple arc set 299
 rectangular arc set 300
 simple arc set 292
 pulled linear sets
 lampara set 291
 parallel set 286
 perpendicular set 288
 perpendicular quarter-arc set 290
 wandering pole seine 290
 trap sets
 block net sets 303
 cable-L trap set 302
 channel trap tide set 305
 enclosure net tide set 305
 purse-seine sets
 purse seine set 306
 selective fishery 341
 smolt (estimating populations) 173, 176, 184

smolt-to-adult survival 235
sonar. *See* hydroacoustics
spawner surveys
 aerial surveys 203, 226, 399–410
 foot-based surveys 203, 214, 403, 435–442
species richness 95
stream reach
 determination of for surveys 29, 113, 202, 206
 mapping 217
subtidal zone (sampling in) 272
survival rate (estimating) 341, 342

T

tags
 coded-wire tags (CWT) 59, 61, 63, 64, 69
 Floy tags 68, 345
 maxillae (jaw) tags 68
 passive integrated transponder (PIT) 176, 343, 345, 357
 telemetry tags 59, 63, 345, 357
taimen *Hucho perryi* 7
terminal fisheries 385
trawl surveys 154
tributary 202, 235, 243, 258

W

weir 236, 244, 252, 367, 368, 370, 374, 385–396
